# General Advice

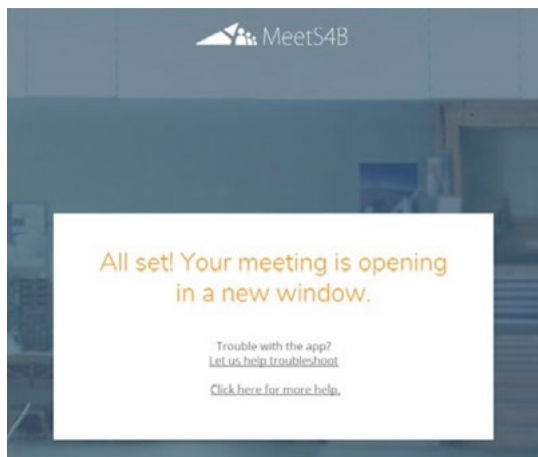

For this meeting you will be using the Skype for Business Meetings App to participate.

## Here you can find some tips:

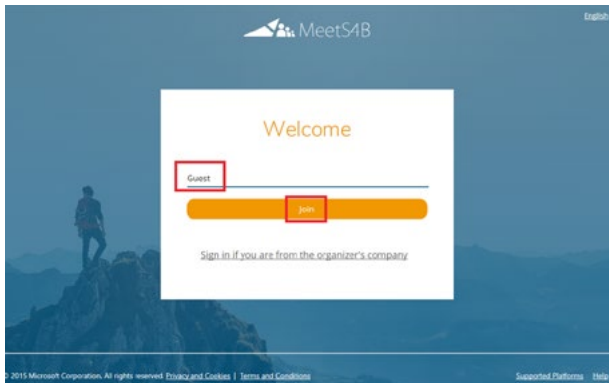

Please click on the meetings link that you have received via email.

A window incl. support links will open. Should you be asked to look for the app in the store, please go back to the main window, click on troubleshoot and reinstall the app.

Next window opens. Please state your name and click on join. You can also simply enter anonymous if you do not want to show your name in the online session.

#### Trouble with the app? Here are some troubleshooting tips:

- Please make sure you've installed the app.
- Reinstall it if you need to.
- Try to join the meeting again.
